Lovely, great quality

By Marcelay!

These notebooks are great! They are beautiful and so well made. With 3 different cover designs, the cover material is somewhat textured and the "Notebook" font on the front is lightly embossed printed in gold ink. The inside cover is also printed in gold ink with a lovely pattern. On the inside it has lined pages with gold print. These are almost too beautiful to write in! They would make great gifts!

These are Knock Offs

By David

These notebooks had the same "design" but felt much flimsier than the prior set of 3 Rifle notebooks I'd bought before. Put side to side with a Rifle paper co notebook I bought before, these are clearly knock offs. The cover is flimsier, the pages are thinner, the labeling on the back doesn't say "rifle paper co" and the back inside cover/label says "Rifle Inc" instead of "Rifle Paper Co." on the real notebook. If you're fine with a less durable notebook, these are fine, but it's false advertising to say it's made by Rifle Paper company, because these clearly are not. If you are actually looking for the high quality Rifle paper co notebooks, buy the real ones.

GEORGEOUS!

By LisaS

This product is GORGEOUS! I am hiding it from my daughters because I know they will want the two books I'm not yet using. I bought this so I can start a gardening journal and it is perfect. I love the gold lines

on the pages and the cover. The only fault, for my purpose, is that I doubt this will wipe off easily if I get any dirt on it. So I'm being sure to not take notes while actually gardening or near my gardens, but instead write my notes at the kitchen table when I'm done for the day. I also prefer pages that are perforated so that I can rip sheets out in case of a mistake or for any purpose. The way this journal is bound, I suspect the pages will fall apart/out if I did that. But I am still in LOVE!
