High 5 to Mari

By Michele Graveline

This is awesome! Very detailed instructions with pictures. Clear pattern templates. Once you master making the doll from Mari's instructions; you should be able to make several different dolls. She gives you the knowledge of the basics and from there you are only limited by your imagination. The only inconvenience was that you have to download and print. I would have preferred an actual book that I could add to my library. I would buy any books and instructions from this author on Fofucha dolls. She is amazing at teaching you the how to's.
