Being crazy is all fun and games...until somebody dies!

A woman has been killed in the middle of a field...or has she?

Someone is poaching deer out of season...but no one can find the kills...

Now a renegade Native American tribe has taken over the county...

Is it any wonder that Nick Behr is crazy?

I love it! Nick Behr is an interesting character that I have enjoyed getting to know and reading his stories!...It has mystery and action but a funny side that kept me in tears laughing!...Heart stopping action from start to finish!

A mystery with action & humour

By Brenda

I got the 1st book KidNAP Inc. for free & found it interesting enough that I bought the 2nd book. Glad I did because I really liked this one even more. The head trauma suffered by the hero left him with hallucinations but we are never quite sure if these people are thoughts from his mind or if there is a supernatural element to the story. Even without the added input of the hallucinations the story has lots of action with a murder to solve, and a touch of humour. There are many interesting characters which add depth to the story & I hope the author does write another instalment as he has succeeded in luring me in.

Don't miss a wonderful mystery!

By Diana K Byrd

This author cannot write books fast enough for me! I loved this book from the beginning and hated to put it down to get my work done! Nick Behr is a fascinating man with a severe head injury that gives him hallucinations or are they? That's the way the entire book is, keeps you guessing right up until the end. I highly recommend all of J.T. Lewis's books, he is an excellent writer who never leaves slow places, he keeps

you on your toes right to the end and there's always a surprise ending.

Exciting and hard to put down!

By JMKH

The problem with some sequels, is that they are often predictable, because we know the main character. This is not a problem in Falcon's Pray! I was left guessing at what was coming next the whole book. Just when I thought I knew where things were going, there was another twist. I love it! I was interested right from the beginning and there weren't any slow spots. This book was truly hard to put down, and I can't stress enough how much I recommend the Nick Behr series!
