Always a Maclean fan since first reading his books in my twenties.

By James Charles Schroder

I really love his books and those that Hollywood chose to make make into movies. His books caused me to purchase this Kindle Fire. I couldn't find all of his books in book stores and even called publishers to order them and those I talked to unfortunately didn't know who or what I was asking about. This Kindle Fire is my book store at home with so many varieties of subjects from fiction to fact.

The reason I love his books is because from page to page the reader doesn't know what will happen next. That's what makes a good mystery to me.

shallow but fun!

typical MacLean...over-the top superman-without cape; outrageous plot lines, shallow but fun!
