MATH REVIEW: GRE, GMAT, MCAT 2ND ED (PETERSON'S GRE/GMAT MATH REVIEW) BY PETERSON'S PDF

Expanded and revised for the first time in 3 years Versatile and informative, this no-nonsense subject review helps sharpen the understanding of both basic and complex math concepts, from algebra and exponents to trigonometry and statistics. Though not part of the Success line, it includes similar components: diagnostic tests, RED ALERT strategies, and 3 practice exams. Great as a supplement to the Success books for the GRE, GMAT, and MCAT, it's the only comprehensive math review that covers all 3 exams.

Not Focused Enough, But OK for Extra Practice

By Rob Szarka

I bought this book to prep for the GRE, so for me the additional material for the GMAT and MCAT was mostly a distraction. (About 25% of the problems in the three practice tests weren't relevant to the GRE.) If you're prepping for more than one of these exams, this book is probably a great value. For the rest of us, the low price means it's probably still worth buying for extra practice; I just wouldn't rely on it as my only prep material.
