MODERN TOWING BY 3RD JOHN S. BLANK PDF

From a perspective of more than fifty years in the industry, the author wrote a wide-ranging work on all aspects of towing, in both inland and ocean waters. Part I, The Industry, gives an overview, followed by descriptions of types of tugs and modes of towing. Part II, Operations, covers getting the tug under way, under way with tow and at sea, and special types of towing. Towing as a Business, part III, deals with the shore establishment. More than fifty appendices consolidate data helpful to the tug-master. The text is illustrated with more than 300 drawings, photographs, diagrams, and other visual aids.

An excellent guide for the professional tug captain

By Latham Smith

When this book was written there was no definitive guide or text for the professional tugboater. Only anecdotal information of questionable reliability was available. George "Harry" Reids "Primer of Towing" had been out for some years...and was and is exactly that--an excellent primer.

Captain Blank has done a superb job. I have used his book for years in training mates to become captains, and have found it to be very accurate information with broad spectrum coverage of many diverse aspects of the trade. It is an easy read, aimed at the tugboater who wants to learn and grow in his profession. He has made a significant contribution to the safety and efficiency of tugboating...and made it a lot easier to train crew with a quality reference.

Four Stars

By Regis Boucabeille

Great text for Tugmasters. Not everything is on the internet yet, some of it is hidden in here.
