Good, and unexpected and unanticipated ending. Liked most of the character development. Could see the scenery in my mind's eye.

Island Mystery

By Reader

The ten of them were on the remote island for a year. Kind of like in Survivor, only real, not a TV show. They had all applied and were chosen to go on this adventure, the end result of which was to be a film of their adventure. None of them was supposed to know each other before the island, except it did not take for long for most of them to figure out they had some sort of connection to others. They just could not figure out

all the pieces of the puzzle as to why they were chosen for this strange adventure. This is their story. The story follows the ten through their daily existence on the island: what and how they forage for food and other necessities of life, how they build whatever shelters they have, how they explore the island, and how they interact as a team. The only glitch comes when some of the ten start dying, either because of an accident, murder, or some other nefarious means. How and why the deaths begin and continue is the real mystery of this book. Along with this murder mystery, the book provides a good picture of survival on the island as well as how and what motivates the people who are part of this experiment/adventure. I thought the plot was pretty good. The character development, for the most part, was also quite good, as were the setting and descriptions. The author writes well, so the book moved along quickly and smoothly. It did start out a bit slow, but that was probably because the author had to get everyone on the island and set the stage for what was to come. Once they got “into the groove”, the pace picked up and continued smoothly and easily to the finish, which was a bit surprising. In the last chapter, those left spend time discussing the “adventure”, where the author sheds some light on the hows and whys of the characters and their actions and the plot, all of which filled in a lot for me. I think any fan of reality shows, like Survivor, who enjoys good mysteries will enjoy this one. Also, anyone who enjoys a good mystery that is not too long and which moves along nicely will enjoy it. I received this through the Kindle Scout program to read and review.
