Book will prepare you better for tests

By Amazon Customer

I scored an 84 out of 100 taking a county police test after reading this book briefly. If you actually take more time to study it more it will prepare you better. The personality questions on the test I took were all about yourself which is no right or wrong answer but I'm guessing they didn't like mine. Overall I was ranked 226 out of around 2000 people testing.
