Simple to understand credit repair!

By Jerrid

Recently, I purchased this book with some skepticism about repairing my credit the legal way. After spending a few hours reading this book I decided that the only way I can better my financial picture was to take some steps, skepticism and all. Needless to say, this book offers some really great insights that I first hand experienced when I decided to change my credit rating. I had a charge off with Bank of America that had some severe derogatory remarks on my credit reports and I still owed the balance. Not only did Bank of America remove this account from my credit reports, but the end result allowed for my credit score to go up 65 points. After reading this book, I found a way to not only write a great letter requesting the removal of the account from my credit reports, but I also learned that you can only be stuck as long as you want to be. Taking small steps and working bigger and tougher problems is what this book is designed to assist you with. I am now tackling inquiries, as I have many.... Best advice for those needing help, save your money and just follow this book. Why pay someone else when this book assists you every step of the way!

I do like the book so far

By vidmantas

I do like the book so far! I did read it twice and started to work on my credit repair. Like the book because it is easy to understand and gives you an information and facts that most of us did not know or did not care to know. Thanks for great job done, Carolyn!

This is by far the best credit repair book I have read so far

By Audrey Walker

This is by far the best credit repair book I have read so far. I recommend anyone who is trying to repair their own credit to get this book... I'm on my way to a better life of credit. I already sent off for my reports. I'm so excited! Thanks again Carolyn.
