After getting this short description, hopefully you can download one and also begin to review [The Aeneid For Boys And Girls By Alfred J. Church](#) This book is quite easy to review every single time you have the spare time.

THE AENEID FOR BOYS AND GIRLS BY ALFRED J. CHURCH PDF

This work of course is an intended sequel to the Iliad and the Odyssey and follows the adventures of Aeneid after his departure; after the burning of Troy. Church has stayed quite true to the original but has told this wonderful tale in a way that the young, I would say around ten years old and up, can fully understand and appreciate. Now do not make the mistake that this is simply a dumbed-down version of this classical tale; my goodness no! It is merely a retelling in language, cadence and reference that make it more understandable, more readable for the young. Nothing has been left out, the adventure and main thrust of the story remains, he has simply retold the tale to make it a bit easier. (Amazon Customer)

By Bubba

My 11 year old had no trouble reading this for school. It is a pretty long version and we split it up over 4 weeks.

I AM SO GRATEFUL THEY HAVE SAVED THIS ONE.

By D. Blankenship

The Aeneid for Boys and Girls has been retold here by Alfred J. Church. This work was first conceived and published in 1908 and fortunately for us, has been reprinted many times since that date. It is one of those old ones that fortunately has stood the test of time and is still with us. The particular edition I am reviewing here is the 1962 printing by The Macmillan Company and it has been illustrated (15 beautifully line drawings) by Eugene Karlin.

I was first introduced to this particular book as a young child by my mother who read it from cover to cover to us several times. I found the story captivating, exciting and almost hypnotic at the time. It was one of my favorites. Later of course I read the "real thing" in High School and in fact the original Virgil's Aeneid was an important part of our Latin Classes, both beginning and through all four years. Later, again this played a part in my life as it figured prominently in several courses I took in college. I mention this just so you know I am a big fan of this work, and have been since I was a little tyke.

This work of course is an intended sequel to the Iliad and the Odyssey and follows the adventures of Aeneid after his departure; after the burning of Troy. Church has stayed quite true to the original but has told this wonderful tale in a way that the young, I would say around ten years old and up, can fully understand and appreciate. goodness no! It is merely a retelling in language, cadence and reference that make it more understandable, more readable for the young. Nothing has been left out, the adventure and main thrust of the story remains, he has simply retold the tale to make it a bit easier.

I do not recommend an adult who has read and understands the original work should take particular effort in reading this one (although I must admit it is enjoyable), but I do recommend this one as sort of a starter kit for classical Greek Literature. Lets face it, during these days we live in, it is becoming more and more difficult to get young people interested in this sort of literature and if it takes something like this, then I say go for it.

This particular edition I am reviewing was illustrated by Eugene Karlin who happens to be one of my favorite artists and illustrators. Perhaps this is one of the reasons I am so fond of this work and this edition. The 15 line drawings, very fine line drawings, are so simple and so complex that you tend to spend almost as much time studying them as you do reading the book. Church, the author or re-teller of this tale, is a fascinating piece of work himself. He published over fifty books in his life time, many in this particular genre. In many ways, he was rather odd. Certainly a product of Victorian England (actually, a major player in many ways), he was able to project his writing around overly, at times, burdensome quirks of the Victorian style which makes his writing rather timeless. It is well worth the reader's time to do a bit of digging and locate more of his work, both for young people and adult.

This book, along with the many other old Macmillan Classic Series, is one that I am glad is still around and I do wish it were used more in our system today. Perhaps if we look back at such offerings, we might be able to dig ourselves out of the hole with our youth we seem to have created for ourselves.

Do yourself and your child a favor and get a copy of this one, either through purchase or at your local library. I think you will be surprised at the results. As a side note; The Baldwin Project is a great place to purchase this one.

it was fun!

By joycjennifer

I'd rate it a 5 - It was fun! - from an 8 year old girl as part of biblioplan curriculum.
