A Journey to Oneness

By Mark K. Needham

If you believe (as I do) that at our core we are all one with everyone and everything in our lives, you'll want to read this book. Larry takes us along on the extraordinary journey of his life that led him to believe in oneness. You'll learn how he became compelled (by intriguing events) to promote oneness. In the second half of the book is a collection of "I Am" poems that are worth the price of the book alone. They are original, witty and engaging. You'll also want to complete the "Wisdom Questionnaire" and share with the world what life has taught you. Finally, in the "What If" Collection, you'll find a series of questions that enlightened individuals should not only ask themselves, but answer. This book will not only leave you feeling at one with Larry, but believing he is a chosen guide for a world destined to achieve oneness.

Awakening Insights

By A. Solana

I enjoyed reading of Larry's journey of self awakening and the insights he has gained along the way. One of the features I especially like is that when you want some inspiration in the moment, you can just open the book to take in one of his journal postings and, of course, it will always be perfect for what you need in the moment.

The Effect of Truth

By Alaniya Patton

There are many ways, in which a person's spiritual path unfolds into the moment of awakening. Should you come across "The Bartholomew Effect: Awakening to Oneness" at any moment in your life, you can be assured that this book has what it takes to touch the spark within you that has brought you to this place. Larry's writings are truth. It's that simple. He does not deviate from his knowing and relates it in a most heartfelt manner that speaks to the innate vulnerability within us all. When truth is spoken, God's light manifests on Earth. When eternal truth is touched upon, everything is lit up in its light and you will find that things that looked to be twisted, knotted up, and difficult before, will turn into the simple things in life. Upon reading Larry's book, the energies of his words echo specifically within the energies of your body and soul and find their way into your heart, for he speaks candidly from his own heart to yours, which is uplifting in nature and facilitates the awakening process energetically. I have read many books on my personal journey, written one even, but rarely has one communicated the Creator's love that permeates everything so simply with eloquent elegance. For any spiritual seeker on the path to awakening, I can highly recommend The Bartholomew Effect.
