About the Author

Zachary X. Hruby is an Instructor in the Department of Anthropology, Humboldt State University, California. With Rowan Flad, he is the editor of *Rethinking Specialization in Complex Societies: Archaeological Analysis of the Social Meaning of Production* (2007, American Anthropological Association). In addition to being a lithic analyst, Hruby is also known as a Mayan epigrapher. Hruby has worked at the Maya site of Piedras Negras, Guatemala, and is currently the Director of the Proyecto Costa Caribe. Geoffrey E. Braswell is an Associate Professor of Anthropology at the University of California, San Diego. He has also taught at the Universidad del Valle de Guatemala and the Universidad Autonoma de Yucatan. Braswell is the editor of *The Maya and Teotihuacan: Reinterpreting Early Classic Interaction* (2003, University of Texas Press). Braswell has conducted archaeological field work at Copan, (Honduras), Chichen Itza (Mexico), and at numerous sites in Guatemala. He is currently the Director of the Pusilha Archaeological Project, Belize. Oswaldo Chinchilla Mazariegos is the Curator of the Museo Popol Vuh, Universidad de Francisco Marroquin, Guatemala. With Stephen Houston and David Stuart, he is the co-editor of *The Decipherment of Ancient Maya Writing* (2001, University of Oklahoma Press). Chinchilla is known for his extensive archaeological and iconographic work in Pacific Guatemala, particularly as the director of several projects in the Cotzumalhuapa region. Chinchilla has also published extensively on Maya hieroglyphs.

As exactly what we really want to provide right here, the publication entitled *The Technology Of Maya Civilization: Political Economy And Beyond In Lithic Studies (Approaches To Anthropological Archaeology) By Zachar* is not sort of obligated publication. You could enjoy this book *The Technology Of Maya Civilization: Political Economy And Beyond In Lithic Studies (Approaches To Anthropological Archaeology) By Zachar* to check out.

Often, checking out *The Technology Of Maya Civilization: Political Economy And Beyond In Lithic Studies (Approaches To Anthropological Archaeology) By Zachar* is really monotonous as well as it will certainly take long time starting from obtaining the book as well as start reviewing. Nonetheless, in contemporary period, you could take the developing technology by making use of the net. By web, you can see this page and also begin to search for guide *The Technology Of Maya Civilization: Political Economy And Beyond In Lithic Studies (Approaches To Anthropological Archaeology) By Zachar* that is required. Wondering this *The Technology Of Maya Civilization: Political Economy And Beyond In Lithic Studies (Approaches To Anthropological Archaeology) By Zachar* is the one that you need, you can choose downloading and install. Have you understood the best ways to get it?

After downloading and install the soft data of this *The Technology Of Maya Civilization: Political Economy And Beyond In Lithic Studies (Approaches To Anthropological Archaeology) By Zachar*, you could begin to review it. Yeah, this is so delightful while somebody ought to check out by taking their big books; you are in your new method by only manage your gizmo. And even you are working in the workplace; you can still make use of the computer system to read *The Technology Of Maya Civilization: Political Economy And Beyond In Lithic Studies (Approaches To Anthropological Archaeology) By Zachar* totally. Of course, it will certainly not obligate you to take numerous pages. Simply page by web page relying on the time that you need to review [*The Technology Of Maya Civilization: Political Economy And Beyond In Lithic Studies \(Approaches To Anthropological Archaeology\) By Zachar*](#)

THE TECHNOLOGY OF MAYA CIVILIZATION: POLITICAL ECONOMY AND BEYOND IN LITHIC STUDIES (APPROACHES TO ANTHROPOLOGICAL ARCHAEOLOGY) BY ZACHAR PDF

The ancient Maya shaped their world with stone tools. Lithic artifacts helped create the cityscape and were central to warfare and hunting, craft activities, cooking, and ritual performance. 'The Technology of Maya Civilization' examines Maya lithic artefacts made of chert, obsidian, silicified limestone, and jade to explore the relationship between ancient civilizations and natural resources. The volume presents case studies of archaeological sites in Guatemala, Mexico, Belize, and Honduras. The analysis draws on innovative anthropological theory to argue that stone artefacts were not merely cultural products but tools that reproduced, modified, and created the fabric of society.
