Matthews informs you. It will add even more expertise of you to life as well as work better. The Western Way Omnibus: Volumes 1 And 2 (Arkana) (Vol 1) By Caitlin Matthews, John K. B. Matthews, Try it and also confirm it.

THE WESTERN WAY OMNIBUS: VOLUMES 1 AND 2 (ARKANA) (VOL 1) BY CAITLIN MATTHEWS, JOHN K. B. MATTHEWS PDF

This is a two-part practical guide to the Western mystery tradition: its history and relevance to the present day, now brought together in one volume. The first section deals with shamanism, early-mysteries and myths of the otherworld, while the second, moves on to the world of the sibyls, alchemists and qabalists whose mystical aim has been to achieve the grail, find the philosopher's stone, and reassemble the scattered body of light.

Two - Two - Two Traditions In One

By Brian E. Erland

Definitely an oldie but a goodie. I read the 'The Western Way Omnibus' some twenty or so years ago when it was originally released as two separate books, 'The Western Way: Native Tradition' and 'The Western Way: Hermetic Tradition.' These two volumes served as my initial introduction to Caitlin and John Matthews' work and I found them both to be highly informative, easy to understand and incredibly rich in the understanding of sign and symbol.

However what I found the most helpful is the Matthew's wonderful storehouse of imaginative and potent journeying narratives. I have personally used a number provided within and have found them to be amazingly successful.

A wonderful read of both traditions, specially if you're into pathworking. I was particularly impressed by the native material in volume 1, but that opinion is based more on personal preference than anything else.

For all those who walk between the worlds- and return

By OAKSHAMAN

This is one of the most valuable spiritual books that I have read in some time. The authors connect two of my primary topics of deep life interest- shamanism and the path of the magus in the Hermetic tradition. I mean, I've always sensed the connection, but I've encountered others that just didn't seem to get it. The authors make this connection- primarily through the classical mystery tradition of the western world. It is identified

that the Hermetic tradition cannot exist without the foundation of the native shamanic tradition, while the shamanic tradition cannot progress without the projection of the Hermetic. One represents the roots, and the other the branches, of the Great Tree.

It was truly remarkable how page after page tied together my own interests, studies, and intuitions- it was almost like one long experience of high-level synchronicity. Of course, the forward and high praise by Gareth Knight should be enough to convince most knowledgeable readers that this book is the real thing.

You could do far worse than to make this book both your introduction, as well as, your primary text for the study of deep, intuitive, Gnostic, spirituality. I know that this book will be going into my permanent reference collection.
