Great textbook but...

By Amazon Customer

I rented this book for my Intro to Sociology class. \$20 to use a book for a semester? Sweet. The articles in this text are wonderful and insightful, but some girl wrote dumb commentary all over the damn book. There is writing in about a quarter of the book in black ink with huge handwriting. Here are just some of her thought provoking words: "doesn't really make sense," "I'm going to a hospital, thanks," "isn't social security like dead?" and "a girl that seeks attention won't attract a wholesome guy. simple." Aside from the commentary, this is an amazing textbook filled with interesting articles and information.

By Amazon Customer

This didn't really keep my attention in class. Which made it very difficult to get good grades in my online class. The small articles didn't really match the class in my opinion, but it was required.
