It can be the one that truly like reading.

WARRIOR FROM THE SHADOWLAND (THE ELEMENTAL PHASES BOOK 1) BY CASSANDRA GANNON PDF

Elementals: Water, Earth, Fire and Air are only the beginning. Elementals support everything from Darkness to Time, secretly maintaining the processes of nature. Only now the Elementals are nearly extinct. Two years ago, the Air House released a plague that killed ninety percent of them. With their society in chaos and so many of their kind dead, they can't find their Phase-Matches; the other halves of themselves. Without Matches they can't have any more children and without the Elementals, the world will end. Again.

Cross: Cross, of the Shadow House nearly triggered an apocalypse once before. The last of the Shadow Elementals, the weight of all the Darkness in the universe has fallen on his shoulders. The crushing power of it should have killed him long ago and he would have welcomed an end to the pain. Except, Cross knows his Match is out there. The woman he's dreamed of forever. He'll do whatever it takes to find her...even go to the human realm.

Nia: Elemental laws forbid mixing with the humans, but Nia, of the Water House isn't a woman who gives up easily. Nia and her ragtag group of "rebels" believe a small town in Florida holds the secrets to their survival. They head there looking for answers, but everything's going wrong. Other Elementals are out for their blood, human technology is sort of baffling, and now the cops are closing in. When Cross arrives, Nia knows he's her Match. Unfortunately, he's teetering on the edge of crazy and refusing to touch her, because he thinks his powers are dangerous. It's up to Nia to convince him they're meant to be, stage a jailbreak, and evade the bad guys.

Oh, and save the universe.

Book One of the Elemental Phases.

Look Past the Errors

By Lexar

I'll say a few things about the whole series here, and then a few things specifically about this first book.

First, Cassandra Gannon (and her sister, as well) is creative, and her stories are compelling. It's a blend of humor and melancholy, and some things work especially well. In this series, the characters have pretty much had their world destroyed--I would be surprised if a single one of them didn't have PTSD. I think Ms. Gannon could probably do more to emphasize just how tragic everything is (something she does well in #5), but I also really like the fact that she focuses on them moving on. Slowly but surely they're making new lives

for themselves, and they're able to look at life with humor and with passion. I commend Ms. Gannon for that message.

But, fair warning for potential readers, while the stories are wonderful, the writing itself is a challenge to get through. Typos and grammatical errors are abundant (which is the reason that I'm giving this book 3 stars instead of 4 or 5). I urge readers to try and look past them, because the story itself is great, but I understand not being able to. A suggestion to Ms. Gannon would be to do more to edit her work, because having all those mistakes detracts from the potential her stories truly have.

About this novel in particular, I think it would make a good start to the series. I didn't actually read the series in order (4, 5, 2, 6, 3, 1) but I can't see a reason as to why "Warrior from the Shadowland" wouldn't make an excellent start. I like Cross, and I'm ambivalent about Nia, but they do make a good Phase-Match, and they work well together as characters. Most of the characters introduced become special unique snowflakes in later (or upcoming) novels, and I promise that the cliffhanger here leads to an awesome story. I will say that Ms. Gannon likes herself an insecure male lead--I feel like I shouldn't be so fond of people thinking so little of themselves, but it's such a nice change from cocky heroes that I just can't help myself. And really, I think it makes them adorable on top of the sexy that they already possess.

All in all, the writing does detract from the story, and I wouldn't be surprised if it turned people away. But if you can look past it, and I sincerely hope that you do, there's a great story and an even greater series underneath. I myself am eagerly waiting for the next book.

Great Story

By Kindle Customer

I really enjoyed this book. The storyline is great. I thought the characters were all well developed. I gave it four stars instead of five due to the many typos and missing words. It would have been really frustrating if I hadn't enjoyed the story so much. If the story or characters had been weak I would have just stopped reading it and deleted it but I was hooked. I even bought the second one already. If you're thinking about reading this book you definitely should. It's worth it.

I don't remember how I stumbled on this book...

By kimmaree

But I am glad I did! It was an entertaining and original story with strong characters. The story does jump around from character to character but instead of being fragmented it all comes together in complementary sub-plots that are intriguing not distracting. Definitely not a brooding (or boring) paranormal romance.

Yes, there were typos and a few mistakes. It was slightly distracting but the story compensated.
