Great Book!

Hats off to Lucy Monroe for a book I didn't want to put down until I finished reading it! I've read the other 2 books in the series and they were just as thrilling.

Willing is Explosive. One HOT read.

By Judy

Willing by Lucy Monroe is an emotional, all out sexy and wickedly fun read.

All Josie McCall knows is being a trained soldier. She realizes there is a life outside of being a mercenary and breaks away from her dad's training school. But someone has bombed the school and her dad barely escapes with his life. Now Josie's dad is missing from the hospital and she needs the help of her dad's business partner. Only bad thing is Daniel Black Eagle sets her heart and soul on fire.

Daniel Eagle has fought his attraction to Josie from the start. She is always in his thoughts one way or another. Now with her father missing Daniel is all set to protect her around the clock. He has his work cut out for him getting independent Josie to agree to have a bodyguard. Being with Josie all the time is playing with fire. Once Daniel learns Josie's feelings are the same, watch out.

Willing is jammed packed with high stakes intrigue, deep-seated emotions and smoking desires. Daniel and Josie both are shaped by their upbringing and it takes the strengths of both of them to forge a future. Their attraction is one of the most sensual books I have read in a while. You can feel both their inner turmoil's on many levels. I can't wait to read the final book in this series, Able.

This will join the "save" shelf

By Inky Reviewer

This trade paperback book by Lucy Monroe is the story of Josette McCall (Josi) who is the daughter of a Vietnam vet who now spends his time doing freelance training of mercenaries at his school in Oregon. After losing her mother at a young age, Josi was raised solely by her father and taught all the skills he knew in his determination to never have his daughter at anyone's mercy or have her endure some of the horrors he saw through his tours of duty.

In her mid-twenties and after a serious injury, Josi has at last decided to leave the mercenary way of life and explore a career in computers. Her father had just taken on a partner in his business in the person of brooding and dark explosives expert Daniel Black Eagle (Nitro).

When her father's compound is torched and her father disappears from the hospital she had taken him to, Josi finds herself partnering up with Daniel in an effort to discover who had destroyed the merc school and just where her MIA father has disappeared to.

This partnership throws these two old acquaintances together where we discover that their assumed mutual dislike was actually covering a great deal of sexual attraction and chemistry between the beautiful merc woman and the modern day Sioux warrior. Their hot tempers and assumptions about their own natures and desires cause them no end of trouble as well as great pleasure during the mission they are both determined to complete.

I enjoyed this book quite a bit and it may well be my current favorite of Lucy's books. Josi was a very strong heroine and Daniel was a very caring but possessive alpha male. The sex scenes were a great balance of hot and detailed without being overly technical - I didn't need to get out the Barbie and Ken to visualize what was going on.

I really enjoyed Josi going through the effort to enjoy "girlie" things and her childlike delight in them at the same time Daniel is trying to convince himself that he's not a fit long-term companion for her.

I think I liked this second book in Lucy's Merc series more than the first book. The characters felt more 3 dimensional to me and I was able to really get into the head of Josi and Daniel.
