It's all about the importance of it's content, not how many pages

By Robert Kirk

After finishing this book I can only give it the best compliment, I will read it over again and again. Yes, it's not very long and doesn't technically qualify as a book but it's contents are all that matter. For \$10 this is a great investment for your short and long term success. Not many original ideas in here but the way the author

has cooked it down to the most important details, I value it's simplicity. How many times have you read books that are 300+ pages and you wonder..."how come it couldn't be more respectful of your time"? This book respects the laws and respects your time to help you change as quickly as possible. I will let the information sink in for a couple of weeks and then I will reread.. I think that is the best compliment I can give the author.

"You 2" For Me

By Tony Butler

This book is the ultimate book for individuals who value success. Easy reading but it is quite powerful in it's message. "You 2" explains how to make quantum leaps in your personal and professional life. This is a must have selection for people who are in sales or self employed.

After reading this book I took a new understanding to the powerful message of getting "uncomfortable" to take things to the next level.

Power packed book

By Mrs. Robyn A. Yin Foo

The ideas in this book are absolutely amazing. I read part of it every day. It assists me to stay focused, and remember that I don't have to work all alone - there are "unseen forces" and powers that, if I tap into them, by law will multiply my results 10 fold. I have recommended it to many people, and our mastermind group are all using it.

It is short,easy to read, and packed with fantastic information.

Couple it with the book "The Quantum Leap Strategy", and you really do have a High Velocity Formula.
